Your Guide to Funeral Planning

We are here to help guide you through the selections you will be making that will help you and your family say goodbye in the way that is right for you.

This easy-to-use guide is designed to walk you through a simple 3-step process, beginning with selecting a funeral service plan.

Step 1: Select a service plan.

Traditional Funeral Service Plan – Viewing the night before the customized ceremony prior to burial. Your loved one is present in his/her casket which can be open or closed.

Graveside Service Plan – A gathering/visitation of family and friends evening before the graveside service the following day.

Gathering of Family and Friends – An informal gathering of family and friends.

Burial with No Services – Burial without ceremony or viewing.

Step 2: Select a Funeral casket .

Step 3: Select a Burial Vault.

A burial vault is a lined and sealed receptacle that houses the casket and protects the casket from the weight of the earth and cemetery maintenance equipment that will pass over it. The burial vault protects the casket, and any memorabilia that you place inside it. It also prevents the grave from sinking in over time.

Step 5: Keepsakes & Personalization.

As you complete your planning, you may also wish to consider keepsakes and personalized jewelry that provide you a lasting remembrance of your loved one.
